

Clinic CRM that keeps the **pet** at the centre.

Appointments, consults, GST invoices, and a health record that stays with the pet — so front desk, doctors, and pet parents work from the same record.

Front desk to discharge

Appointments, reminders, and check-in — no paper registers.

Records that persist

Consults, prescriptions, and vaccines logged against the pet.

GST-ready invoices

One-click invoices and WhatsApp receipts, GST from day one.

One login, many roles

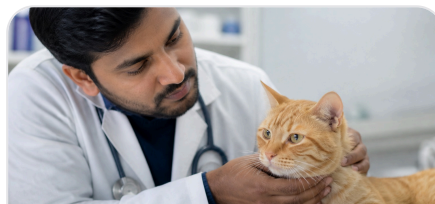

Clinic, doctor, and pet parent — same platform, one identity.

Clinics

Register the practice. Run front desk to discharge in one screen.

kittyp.in/signup/clinic-admin

Doctors

Join a clinic or run personal practice on Kittyp.

kittyp.in/signup/doctor

Pet parents — free

Book visits and keep vaccines, notes, and invoices in one place.

Veterinary operating system for India

Clinic CRM that keeps the **pet** at the centre.

How do I reach support?

Email support@kittyp.in anytime, or WhatsApp +91 89838 37798 Monday–Saturday, 9am–7pm IST. You can also use kittyp.in/contact.

Are pet parent accounts free?

Yes. Pet parent accounts stay free. Doctors joining a clinic or running personal practice are included with the clinic plan.

Login, password, or account change?

Use in-app reset where available. If you are locked out or did not request a change, email support@kittyp.in from the account address.

Invoices, GST, or WhatsApp receipts?

Clinics create GST-ready invoices in billing and can share WhatsApp receipts. We help with account and setup — not with clinical billing advice.

Is there a free pilot?

Yes. A 21-day pilot at ₹0, no card required. Plans and details: kittyp.in/pricing.

Pet medical emergency?

Call a qualified veterinarian or emergency animal care. Kittyp cannot provide clinical treatment or advice.
